RE: Business Opportunity Rule R511993

To Whom It May Concern:

I am writing this letter because I am concerned about the proposed Business Opportunity Rule R511993. I believe that in its presented form it would prevent the business we operate from continuing as a XanGo Independent Distributor, and would destroy the small business we have worked so hard to build and operate, as well as those of , literally, thousands of others.

We have been operating a home based business, which is an independent Contractor representing XanGo LLC, for more than 2 years. We contracted to operate this business because we loved the product and wanted to share it with others. Many of these people are now operating their own businesses on a full time basis. There are today, thousands who are solely supporting their entire families from their XanGo income.

Some of the sections in the proposed rule (Rule 511993) would make it hard or almost impossible for me sell the XanGo product and would make it especially difficult, if not impossible to introduce others to this fantastic opportunity under the proposed rules.

The proposed waiting period will give the public the idea that there's something wrong with me or the XanGo business plan and also will reflect badly on me. I believe this 7 day waiting period is unnecessary, because XanGo already has a 90% buy back policy for all products including sales kits purchased by a salesperson. Additionally a 100% total money back guarantee, which applies to any new enrollee, guaranteed for these new enrollees and is currently and daily exercised freely by anyone purchasing from XanGo within the first 30 day period. The current procedures in place by XanGo already insure that no one can ever be hurt financially by the XanGo business opportunity.

One of the most difficult sections of the proposed rule is the seven day waiting period to enroll a new distributor. These procedures would make it extremely difficult to build and operate a XanGo business.

The XanGo sales kit only costs \$35. People buy TVs, cars, and other items that cost much more than that and they don't have to wait seven days. With these new proposed rules, the XanGo opportunity would cease to be for the average person and would require one to be an aggressive and capable business person in the beginning. This is exactly opposite to what the XanGo business opportunity was designed to do. This change would stifle the initial profit and actually make operating a XanGo business less profitable than it currently is under the existing rules and procedures. For a new rule to stifle profit should point out the inadequacy of thought that has generated this new rule proposal.

The proposed rule requires the disclosure of a minimum of 10 prior purchasers nearest to the prospective purchaser. I would be glad to provide references, but in this day of identity theft, I am very uncomfortable giving out the personal information of individuals (without their approval) to strangers. Women in our organization may be subject to sexual or racial harassment so, unless the FTC passes an addition to this rule prohibiting sexual or racial attacks related to this disclosure it will open up women to sexual attacks and /or stalking. In the end this rule must bind the FTC to take direct enforcement action on sexual and racial attacks with a special unit assigned to monitor actions related to the disclosure forms.

Also, sharing names and addresses of existing distributors with a "prospect" would open an organization to being attacked by other businesses. A person from another sales organization who wished to proselytize an existing organization would literally be given the key to the bank... it would be like hiring the fox to protect the hens in a hen house. Why would any person in his/her right mind feel sharing existing contacts and/or customers with their competition was in their best interest?

Daily I see many scams on the Internet and we have been approached by many crooks because of our success. The proposed rule R511993 will do nothing to stop these unscrupulous crooks. They hurt our business. This rule will not stop Crooks—they violate the current rule all the time. But We are good American Citizens and the proposed rule R511993 will hurt us. Thank you and please help us retain the right to operate a XanGo business where the company, XanGo LLC already has procedures in place to protect anyone from loss of money and/or time and credibility.

XanGo is a good company, please do not lump great companies like XanGo, which has 100% money back 30 day guarantee, into the same barrel as those who currently take advantage of others daily with no repercussions. If you wish to go after those who are damaging or hurting innocent people, We will salute you, but for heaven's sake, let's not throw the baby out with the bath water.

Please insure that any proposed rules will not be detrimental to the incredible volume of sales created by the Direct Selling Industry, a Multi Billion Dollar industry today. T do so

would hurt the United States economy tremendously. May I humbly suggest that you or your representative visit the XanGo LLC headquarters in Utah and see what kind of passionate and caring company this is? You will be shocked to see a Company which has the hearts of the American People in their minds, and one that would never place an individual in peril financially.

Please go after the bad guys, not the good guys.
